Hindi: Mangal | Body: 12 pt | Heading: 12 pt, ALL CAPS | 1.5 line spacing

Writing on the same topic in both English and Hindi is encouraged.

The selection, editing and inclusion of any part of a submission shall remain at the sole discretion of the Organising Committee. All selected contributors will be acknowledged by name at the end of the handbook.

ABOUT PROJECT NYAYABODH

Project NyayaBodh is a flagship legal-aid and legal-literacy initiative being undertaken as a part of NYAYATECH Conclave.

The project aims to create a comprehensive, easy-to-understand handbook on everyday law and legal rights for ordinary citizens — particularly for individuals who may not always have immediate access to lawyers, courts or formal legal assistance.

ABOUT NYAYATECH

CONCLAVE

NYAYATECH is the blend of two ideas — Nyaya (Justice) and Technology.

The Conclave explores the evolving relationship between law, technology and access to justice. It seeks to examine how digital innovation can strengthen legal aid, dispute resolution, public interest initiatives and community access to legal services, while ensuring that technological advancement remains rooted in accessibility, inclusion and fairness.
